Abstracts

6-7 July 2009

Australasian Association for Literature
Third Annual Conference of the

Literature and Politics
The precession of the Earth's rotation axis is an important factor in understanding the nature of the Earth's magnetic field. The Earth's magnetic field is generated by the movement of electrically charged particles within the Earth's core. The precession of the Earth's rotation axis causes the Earth's magnetic field to drift slowly over time, which can affect the Earth's climate and weather patterns.

In the past, scientists have used the Earth's magnetic field to study the history of the Earth's crust. By examining the Earth's magnetic field, scientists can learn about the conditions that existed on the Earth millions of years ago. The Earth's magnetic field is also used to study the Earth's interior, including the location and movement of the Earth's tectonic plates.

The Earth's magnetic field is important for a variety of applications, including navigation and communication. The Earth's magnetic field is also used to study the Earth's atmosphere, including the movement of the Earth's atmosphere and the formation of the Earth's climate patterns. The Earth's magnetic field is also used to study the Earth's space environment, including the movement of the Earth's space weather and the formation of the Earth's space climate patterns.

![Image of the page with the schedule]

**Programme Overview:**

- **First Floor:** Woolsey Common Room
- **Second Floor:** NAGF (First Floor), 323G (Ground Floor)

**Time Blocks:**
- **9:00-10:30:** Morning Tea NAGF
- **10:30-11:00:** Coffee and Writing
- **11:00-12:30:** Forum: Politics and Publishing
- **12:30-1:30:** Lunch NAGF
- **1:30-4:30:** Afternoon Tea NAGF
- **4:30-6:00:** Workshop on Literature and Politics

**Location Details:**
- Room 001 (First Floor) for all morning and afternoon sessions.
- Woolsey Common Room for the forum.

---

**Workshop on Literature and Politics:**

- The study of literature through a lens of politics and social justice.
- Discussions on the role of literature in shaping political ideologies.
- Engaging with texts that explore themes of power, equality, and resistance.

---

**Literature and Politics Conference:**

- A gathering of scholars, activists, and practitioners to explore the intersections between literature and politics.
- Panels and workshops designed to facilitate dialogue on the transformative power of literature in the face of political challenges.
- Opportunities for networking and the exchange of ideas on how literature can be a tool for social change.
