

and bringing by the return of that Vessel a collection of the Vegetable Production of King George Sound and His Excellency expects that you will cause every facility in your power to be afforded to him in the performance of this Service

A collection of Garden Seeds and Plants of which a list is inclosed [sic] is shipped under his Care and the Governor trusts that no time will be lost in preparing some Ground for Gardens as well as for planting Maize of which you will observe that a Ample Supply is provided.

His Excellency conscious of a almost unnecessary to call your Particular attention to the case of the Live stock as you must be fully aware of the importance of such Stock to a new Settlement. A supply of Horned Cattle will be sent to you by the first opportunity and on this subject I have only further to add that until the stock of the Settlement be full established particular orders should be given to prohibit the Killing of any breeding Animals.

The medical duties of the Expedition and Settlement are entrusted by His Excellency to Mr. Isaac Scott Nind an Assistant on the colonial Medical Establishment who has been furnished with the proper instructions by the Principal Surgeon. and who is to receive 7^s/0 per diem and Rations for himself and one Servant from the date of his embarkation on board of the Amity.

To keep His Excellency fully informed of the progress and exact State of the Settlement. I have to request that by every opportunity that may offer you will transmit correct and methodical returns of the following descriptions, viz

1st Return of Deaths that have occurred with the dates and of the numbers actually on the spot distinguishing the healthy and the

sick
